Do you know someone who would like to live more independently? Learn to cook and live on a budget? Become more confident around others? Plan and manage their time?

In 'The Living Room', our 10-week Life Skills programme for young people aged 16-18, we cover a range of themes including budgeting, cooking and food hygiene, looking after yourself and your home, planning and resilience. Groups are informal, they're fun and the feedback we receive is fantastic! Our next groups start later in January and we have some spaces available. We can also offer one-to-one support, depending on individual needs.

For more information call 01463 248630 and ask for Liz or Gillian or email training@calman.org. If you are a young person, an interested individual, or an agency working with people who would benefit from these opportunities, just get
