

SMART Recovery at HMP Inverness

Once again HMP Inverness is leading the way in SMART Recovery. On 22nd and 23rd February 2017 HMP Inverness hosted SMART Peer Facilitator face to face training sessions. This is the second time that HMP Inverness has hosted such an event with the last being in July 2016. Working in partnership with Highland Alcohol and Drug Partnership (HADP) we managed to bring this exciting opportunity back to HMP Inverness. On this occasion 8 Prisoners trained alongside 14 participants from across the Highland to become SMART Peer facilitators.

Co-delivery of this training event was conducted by Trish Allen - National Co-ordinator, SMART Scotland and Frank Brodde - National Co-ordinator, SMART Denmark.

There was a graduation ceremony on 24th February to celebrate their achievements. All who attended the training sessions were successful in passing both assessments and are looking forward to becoming active SMART Peer facilitators in the near

future. We wish to thank them all for their commitment and efforts throughout this training.
